Phnom Penh, Cambodia

## About Me

I'm a sophomore IT student with experience in front-end (HTML, CSS, JavaScript, React) and back-end (Node.js, Express, MySQL, Python Flask) development. I've worked with cloud hosting, JSON servers, and UX/UI design for multiple platforms. I'm eager to apply my skills and gain more experience through a web development internship.

## Skills

- Front-End HTML CSS JS
- Back-End Node Express
- Database SQL/MySQL
- Framework React JS
- Figma: UX/UI
- Editing: Premier Pro

## Education

### Bachelor of Information Technology

(RULE) Royal University Of Law And Economics 2024-Present

I am currently a sophomore student majoring in Information Technology at the Royal University of Law and Economics (RULE). Renowned for its academic excellence, RULE provides a strong foundation in both theoretical and practical aspects of IT, equipping students with essential technical skills and problem-solving abilities to excel in the dynamic tech industry.

### English GEP 12 and Diploma

Australian Centre for Education (ACE)

2019 - 2023

I completed my English education at ACE in Toul Tum Pong, Phnom Penh, where I successfully finished GEP 12 and earned a Diploma of Reading. Additionally, I achieved a Band score of 5.5, reflecting my proficiency in English and commitment to improving my language skills.

## Courses

### Web Front-End HTML CSS JavaScript Bootstrap

Etec Center

2023-2024

I completed a Web Front-End course covering HTML, CSS, JavaScript, jQuery, and Bootstrap, where I gained practical skills in designing and building user interfaces. As part of the course, I developed a demo project to showcase my understanding of front-end development concepts.

### Web Back-End Express/MySQL & Python Flask/MySQL

Etec Center

2024-2024

I completed two courses focusing on back-end development: Node.js with Express and MySQL, and Python Flask with MySQL. These courses provided me with a solid foundation in building server-side applications and managing databases effectively.

### Web Framework JS + React JS

Etec Center

2024-2025

I completed a course in JavaScript and React, where I learned to build dynamic and interactive web applications. For my demo project, I hosted the application on a cloud domain and used a JSON server for managing data, showcasing my ability to integrate front-end and back-end technologies effectively.

### UX UI Design

Professional Training Center (ICT)

2025-Present

I am currently studying UX/UI design, where I am learning the principles of user experience and user interface design across various platforms, including desktop, tablet, and mobile. I have gained a solid understanding of how to create intuitive, user-friendly designs that enhance the overall user experience.
